EDUCATION

BACHELOR DIPLOMA IN INFORMATION TECHNOLOGY Passerelles numériques Vietnam (PNV)	Sep 2019 - Otc 2022 GPA: 3.46/4
---	--

SKILLS INFORMATION

Languages: Dart, Kotlin, Javascript, Java
Frameworks: Flutter, React Native, Java spring boot, ReactJs, Nextjs
Backend-Infrastructure & Database: Redis, Apache Kafka, Docker, PostgreSQL, MySQL, Redis
Methodologies: Agile, Jira, Confluence

WORK EXPERIENCES

MOBILE ENGINEER <i>SparkMinds Company - Flutter, React Native, KotLin, Swift, Java Spring Boot</i>	Aug 2023 - Now
- Contributed to the development of multiple mobile applications across domains such as Social Media, E-commerce, Crypto, and Dating, Booking, PMS, HRM delivering stable and scalable products for international clients. - Implemented secure eKYC verification (passport, ID card, selfie) and real-time exchange rate charts integrated with NIUM API, improving platform security and financial transparency. - Developed real-time features including Socket.IO communication and push notifications to enhance user engagement and responsiveness. - Led mobile build management and successfully released applications on Google Play Store and Apple App Store. - Built an internal deep linking solution to replace third-party services, reducing operational costs and improving system control. - Contributed to backend development using Java Spring Boot, building RESTful APIs to support mobile application features. - Supported developers through code reviews and technical guidance. - Optimized application performance and reduced bugs through refactoring and improved state management strategies.	
MOBILE ENGINEER <i>Voyager Company - Flutter, Kotlin</i>	May 2023 - Aug 2023
- Developed a cross-platform mobile app using Flutter to interface with IoT devices. - Integrated native Android (Kotlin) code into Flutter via platform channels to enable real-time video calling between the IoT device and Mobile. - Developed application with data synchronization from server to local storage, enabling seamless functionality in offline (non-internet) environments. - Built dynamic real-time charts (occupancy detection) synced from IoT sensors, optimized with stream-based data updates using SocketIO. - Implemented NFC-based login authentication via chip-embedded cards. - Utilized GraphQL for efficient and structured device communication and data querying.	
MOBILE ENGINEER <i>GreenAgri Company - Flutter, Kotlin</i>	Aug 2022 - May 2023
- Designed and managed app state using GetX for lightweight UI interaction and Bloc/Cubit for modular business logic control. - Integrated push notifications, background handling, and platform-specific permission flows, using sqlite integrate functionality in offline - Deployed applications to Google Play Store and Apple App Store, managing signing, CI/CD pipelines, and store submission processes. - Collaborated with third-party vendors to research, develop, and integrate key hardware features, including receipt printing and audio notification systems for sound box devices, into our cross-platform IoT application. - Orchestrated the planning and execution of application version upgrades, ensuring seamless deployment and zero downtime for users.	
FULL STACK DEVELOPER <i>CBTW Vietnam - Java, Javascript</i>	Apr 2022 - Aug 2022
- Completed a 2-months programming internship, gaining foundational experience in software development. - Participated in the Viator travel real web project as a Full-stack Developer for 3 months, contributed to features. - Worked with modern web technologies including Redux, TypeScript and Java Spring Boot. - Followed the Agile/Scrum methodologies, attended daily standups, sprint planning, and regular reviews.	
FULL STACK INTERN <i>Atoma Company - Laravel. Vuejs, Flutter</i>	July 2021 - Sep 2021
- Completed a 2-months internship focused on building a Flutter mobile application with user authentication and CRUD operations. - Designed and implemented a demo product to manage user accounts, including login, authentication, and user. - Studied and applied Vue.js to build a responsive admin dashboard for HR managers with full CRUD capabilities. - Received feedback and review of mentor each PR.
